### SEPTEMBER AVAILABILITY LIST FOR 2018

Botanical Name	Common Name	Description	Plant Type	Pot size mm	Orders
Acacia alata	Winged Wattle	Shrub, 0.3-2.1 m high. Fl white-cream/yellow/pink, Apr to Dec. Variety of soils. Near water, rocky hills, breakaways, salt pans, clay flats.	Med	140	
Acacia glaucoptera	Flat Wattle	Clay and gravelly lateritic soils. Yellow flowering winter/spring.	Sm	5L	
Adenanthos cunninghamii	Albany Woolly Bush	Well drained coastal soils. Attracts honey-eating birds.	Med	140	
Adenanthos cunninghamii	Albany Woolly Bush	Well drained coastal soils. Attracts honey-eating birds.	Med	5L	
Adenanthos meisneri	Prostrate Woollybush	Medium to Well drained soil. Drought tolerant and attracts honey eaters	GC	140	
Adenanthos sericeus	Albany Woolybush	Well drained soils, suited to coastal gardens.	Lg	140	
Adenanthos sericeus	Albany Woolybush	Well drained soils, suited to coastal gardens.	Lg	5L	
Agonis flexuosa	Peppermint Tree	Well drained soils. Mature leaves emit a pleasant peppermint aroma.	Med tree	140	
Agonis flexuosa	Peppermint Tree	Well drained soils. Mature leaves emit a pleasant peppermint aroma.	Med tree	5L	
Alyogyne huegelii	Lilac Hibiscus	Most soil types. A variety of habitats. Purple flowering winter/summer.	Med	140	
Anigozanthos manglesii	Red and Green Kangaroo Paw	Well drained soil. Drought tolerant. Flowering time in Late winter, spring	Strappy	140	
Anigozanthos viridis	Green Kangaroo Paw	Most soils and wet depressions. Container planting. Green flowering winter/spring	Strappy	140	
Austrostipa flavescens					
Banksia ilicifolia	Holly-leaved Banksia	Erect tree or shrub, to 12m high. Fl. Red/orange/yellow/cream, Jan to Dec. White or grey sand, black sandy loam, limestone, granite, quartz. Consolidated dunes or low-lying flats.	Lg	140	
Boronia megastigma	Brown Boronia	Winter wet swamps and frost hardy. Fragrant brownish flowering winter, spring.	Sm	140	

<b>Botanical Name</b>	<b>Common Name</b>	<b>Description</b>	<b>Plant Type</b>	<b>Pot size mm</b>	<b>Orders</b>
Boronia megastigma	Brown Boronia	Winter wet swamps and frost hardy. Fragrant brownish flowering winter, spring.	Sm	5L	
Callistemon 'Captain Cook'	Dwarf Bottlebrush	Shrub 1.5 - 2m Most soil types. Red flowering Spring/summer.	Med	140	
Callistemon 'Captain Cook'	Dwarf Bottlebrush	Shrub 1.5 - 2m Most soil types. Red flowering Spring/summer.	Med	5L	
Callistemon 'KPS'	Red Bottlebrush	Most soils, coastal areas. Bright red, bottlebrush flowers spring to summer.	Sm tree	140	
Callistemon 'KPS'	Red Bottlebrush	Most soils, coastal areas. Bright red, bottlebrush flowers spring to summer.	Sm tree	5L	
Callistemon 'Perth Pink'	Pink Bottlebrush	Tall open shrub to 4m, deep pink flowers in spring, most soil types, bird friendly	Lg	140	
Callistemon 'Wildfire'	Red Bottlebrush	Most soils. Red flowering in Spring. Bird attracting.	Med	140	
Callistemon Little John	Dwarf Bottlebrush	0.75-1m H, 0.5-1m W. Fl Spring, Summer. Sandy, clay, loamy, sandy loam, poor soil.	Sm	140	
Callitris preissii	Rottneest Island Pine	Sandy soils and winter wet depressions.	Sm tree	5L	
Calothamnus lateralis		Heavy soils and wet depressions. Red flowering winter/spring	Med	140	
Calothamnus quadrifidius	One-side Bottlebrush	Wide variety of soil types. Red, white to yellow flowering in Spring/Summer.	Med	140	
Calothamnus quadrifidius	One-side Bottlebrush	Wide variety of soil types. Red, white to yellow flowering in Spring/Summer.	Med	5L	
Calothamnus sanguineus	Silky leaved net bush	Well drained soils. Red flowering Winter/spring	Med	140	
Carpobrotus virescens	Coastal Pig Face	Prostrate, succulent perennial, herb, 0.1-0.3 m high, 0.5-3m wide. Fl purple-pink/white, Jun to Dec or Jan. White, grey or brown sand. Coastal limestone cliffs and dunes	Sm	140	
Centella asiatica	Herb	Best grown in winter-wet depressions	GC	140	
Chamelaucium alba	White Geraldton Wax	Well drained soil, coastal conditions. White flowering in winter to spring.	Lg	140	
<u>Chamelaucium cilliatum</u>	Albany wax	Erect or spreading shrub. Flowering white-pink in summer. Grows in a variety of soils.	Sm	140	
Chamelaucium floriferum Cross	Walpole Wax cross Geraldton Wax	Well drained, coastal conditions. White flowers in winter to spring.	Med	140	
Chamelaucium floriferum Cross	Walpole Wax cross Geraldton Wax	Well drained, coastal conditions. White flowers in winter to spring.	Med	5L	
Chamelaucium Sp. Walpole	Walpole Wax	Well drained, coastal conditions. White flowers in winter to spring.	Med	140	
Chamelaucium Sp. Walpole	Walpole Wax	Well drained, coastal conditions. White flowers in winter to spring.	Med	5 L	

Botanical Name	Common Name	Description	Plant Type	Pot size mm	Orders
Chamelaucium uncinatum	Geraldton Wax	Well drained soil, coastal conditions. Purple flowering in winter to spring.	Lg	140	
Chorizema cordatum	Flame Pea	Most soil types. Best in moist part shaded areas.	Climber	140	
Commersonia erythrogyna		Threatened Flora. Shrub, Cream/white flowers in Spring. Grows around Boyupbrook area.	Sm	140	
Correa 'Dusky Bells'	Native Fuchsia	Most soils in shady position. Great container plant. Pale carmine-pink bell flower.	Sm	140	
Correa 'Dusky Bells'	Native Fuchsia	Most soils in shady position. Great container plant. Pale carmine-pink bell flower.	Sm	5L	
Correa 'Wyn's Wonder'	Variegated Native Fuchsia	Most soils in shady position. Great container plant. Pale carmine-pink bell flower.	Sm	140	
Correa 'Wyn's Wonder'	Variegated Native Fuchsia	Most soils in shady position. Great container plant. Pale carmine-pink bell flower.	Sm	5L	
Corymbia ficifolia	Red Flowering Gum	Sandy soils and grows best in full sun. Red/orange flowering in Summer, autumn. Ideal street tree	Sm Tree	140	
Corymbia ficifolia	Red Flowering Gum	Sandy soils and grows best in full sun. Red/orange flowering in Summer, autumn. Ideal street tree	Sm Tree	5L	
Dampiera diversifolia		Good drainage and performs best in moist soils. Intense, dark blue flowers in winter to spring.	GC	140	
Darwinia citriodora	Lemon Scented Myrtle	Requires freely draining soils. Lemon scented leaves when crushed.	Sm	140	
Darwinia citriodora	Lemon Scented Myrtle	Requires freely draining soils. Lemon scented leaves when crushed.	Sm	5L	
Darwinia 'Seaspray'	Lemon Scented Myrtle	Prostrate small shrub. Requires freely draining soils. Lemon scented leaves when crushed.	GC	140	
Diplolaena dampieri	Southern Diplolaena	Sandy, coastal conditions. Red/Orange flowering in winter, spring.	Med	140	
Dodonaea purpurea	Purple Hop-bush	Bronze green foliage, purple/red fruit capsules. Fast growing hedge.	Lg	5L	
Enchylaena tomentosa	Barrier Saltbush	Prostrate to erect shrub, 0.1-0.6(-2)m high. Fl May to Sep. Variety of soils	Sm	5L	
Eremophila nivea	Silky eremophila	White/grey, tomentose shrub, 1-2m high. Fl blue-purple-violet, Aug to Oct. Sandy clay, clay loam. Undulating plains, road verges.	Med	140	
Eremophila raceamosa	Showy Eremophila	Erect small shrub. Purple-pink-red/white flowering, Mar or Aug to Dec. Sandy or stony loam, clay loam. Undulating plains, roadsides.	Sm	140	

Botanical Name	Common Name	Description	Plant Type	Pot size mm	Orders
<i>Eremophila raceamosa</i>	Showy Eremophila	Erect small shrub. Purple-pink-red/white flowering, Mar or Aug to Dec. Sandy or stony loam, clay loam. Undulating plains, roadsides.	Sm	5L	
<i>Eremophila denticulata</i>	Emu Bush	Erect, open shrub, 0.5-2.5 m high. Fl. pink-orange/yellow-orange-red, Aug to Dec or Jan to Feb. Alluvium, sand, sandy clay loam. River beds & plains, laterite breakaways.	Sm/Med	140	
<i>Eremophila gibbifolia</i>	Coccid emu-bush	It is a small, rare shrub in the wild, it has small, fleshy, lumpy leaves and lilac-coloured to purple flowers, spotted inside. Great container plant.	Sm	140	
<i>Eremophila glabra</i> 'Burgundy'	Emu Bush	Tolerates hot, dry conditions and poor soils. Lip-stick-red flowering.	GC	140	
<i>Eremophila glabra</i> 'Burgundy'	Emu Bush	Tolerates hot, dry conditions and poor soils. Lip-stick-red flowering.	GC	5L	
<i>Eremophila glabra</i> 'Prostrate'	Prostrate Emu Bush	Well drained soils and costal conditions. Silvery/green foliage. Drought tolerant.	GC	140	
<i>Eremophila glabra</i> 'Upright'	Emu Bush	Well drained soils and costal conditions. Silvery/green foliage. Drought tolerant.	Sm/Med	5L	
<i>Eremophila serpens</i>	Snake Eremophila	Small/medium ground cover, flowering green/yellow-green, most of the year. Most soil types, wet depressions, and salt tolerant.	GC	140	
<i>Eucalyptus caesia</i>	Silver Princess	Heavier soils. Pink flowering Winter.	Sm tree	140	
<i>Eucalyptus erythrocorys</i>	Red Capped Gum	Sandy soils. Yellow flowering Summer/Autumn.	Sm tree	140	
<i>Eucalyptus erythrocorys</i>	Red Capped Gum	Sandy soils. Yellow flowering Summer/Autumn.	Sm tree	5L	
<i>Eucalyptus torquata</i>	Coral Gum	Well drained soils and drought tolerant. Pink fluffy flowers.	Sm tree	5L	
<i>Eucalyptus vitrix</i>		Spreading tree, 1-12(-22)m high, bark smooth, sometime with 1m box style stocking. Fl white-cream, Nov or Jan to Mar. Red loamy or sandy soils, clay loam. Floodplains, flats	Med tree	140	
<i>Eutaxia myrtifolia</i>	Egg and Bacon	Most soils and coastal conditions. Orange, yellow/red flowering in winter.	Sm/Med	140	
<i>Ficinia nodosa</i>	Knotted Club-rush	most soils and seasonally-wet swamp lands	Strappy	140	
<i>Gastrolobium celsianum</i>	Swan river pea	Well drained soils. Silvery-backed leaves and red flowering in winter to spring.	GC	140	
<i>Gastrolobium praemorsum</i>		Heavy soils types. Will tolerate coastal and wet-boggy ground. Red-green flowering Spring/summer.	GC	140	
<i>Goodenia varia</i>	Kalgoorlie honey dew	Well drained soils, frost and drought tolerant. Yellow flowering spring.	GC	140	

<b>Botanical Name</b>	<b>Common Name</b>	<b>Description</b>	<b>Plant Type</b>	<b>Pot size mm</b>	<b>Orders</b>
Grevillea 'Apricot Glow'	Olive Grevillea	Fast growing, great screen plant, Coastal conditions Apricot flowering in winter to spring.	Lg	140	
Grevillea 'Apricot Glow'	Olive Grevillea	Fast growing, great screen plant, Coastal conditions Apricot flowering in winter to spring.	Lg	5L	
Grevillea carramara	Gold	Coastal conditions. Bird attracting. Pink, cream flowering Autumn, winter.	Med	140	
Grevillea carramara	Gold	Coastal conditions. Bird attracting. Pink, cream flowering Autumn, winter.	Med	5L	
Grevillea carramara	Orange	Coastal conditions. Bird attracting. Orange, cream flowering Autumn/winter.	Sm	140	
Grevillea carramrra	Orange	Coastal conditions. Bird attracting. Orange, cream flowering Autumn/winter.	Sm	5L	
Grevillea carramara	Red	Coastal conditions. Bird attracting. Red flowering Autumn, winter.	Med	140	
Grevillea carramara	Red	Coastal conditions. Bird attracting. Red flowering Autumn, winter.	Med	5L	
Grevillea fililoba	Ellendale	Coastal conditions. Bird attracting. Red flowering from autumn to winter.	Med	5L	
Grevillea 'Lemon Supreme'	Lemon Supreme	Coastal conditions. Bird attracting. Yellow flowering from Autumn to Winter.	Med	140	
Grevillea 'Lemon Supreme'	Lemon Supreme	Coastal conditions. Bird attracting. Yellow flowering from Autumn to Winter.	Med	5L	
Grevillea Gingin Gem		Grows well in a range of soil. Suitable as a covering embankments and rockeries.	GC	5L	
Grevillea 'Apricot Glow'	Olive grevillea	Fast growing, great screen plant, Coastal conditions Apricot flowering in winter to spring.	Lg	5L	
Grevillea olivacea 'Red'	Olive Grevillea	Fast growing, great screen plant, Coastal conditions Red flowering in Winter to Spring.	Lg	140	
Grevillea olivacea 'Yellow'	Olive Grevillea	Fast growing, great screen plant, Coastal conditions. Yellow flowering in winter to spring.	Lg	140	
Grevillea olivacea 'Yellow'	Olive Grevillea	Fast growing, great screen plant, Coastal conditions. Yellow flowering in winter to spring.	Lg	5L	
Grevillea Seaspray		Coastal conditions, bird attracting. Red flowering in Winter.	GC	5L	
Grevillea 'Red Sunset'		A beautiful, spreading shrub reaches only 1.5 m high with spectacular red spider flowers in profusion in Winter and Spring. Frost tolerant	Med	140	
Grevillea vestita		Sandy soils over granite or limestone. White flowering in winter to summer.	Lg	140	

<b>Botanical Name</b>	<b>Common Name</b>	<b>Description</b>	<b>Plant Type</b>	<b>Pot size mm</b>	<b>Orders</b>
Hakea laurina	Pin Cushion Hakea	Sand, sandy clay soils. Pink/cream flowering in Winter.	Lg	140	
Hakea laurina	Pin Cushion Hakea	Sand, sandy clay soils. Pink/cream flowering in Winter.	Lg	5L	
Hakea lissocarpa	Honey Bush	Erect to sprawling, pungent shrub, White-cream/yellow/pink, winter/spring. White, grey or yellow sand, sandy loam, granitic soils, laterite.	Med	140	
Hakea petiolaris	Sea Urchin Hakea	Loam granite outcrops. Pink and cream flowering autumn/winter	Lg	5L	
Hakea trifurcata	Two-Leaf Hakea	Most soil types. Flowers white/cream-pink, Winter/Spring.	Med	140	
Hakea trifurcata	Two-Leaf Hakea	Most soil types. Flowers white/cream-pink, Winter/Spring.	Med	5L	
Hardenbergia comptoniana	Native wisteria	Well drained soils, coastal. Purple flowering winter/spring	Climber	140	
Hardenbergia comptoniana	Native wisteria	Well drained soils, coastal. Purple flowering winter/spring			
Hemiandra pungens	Snake Bush	Most soils. Mauve flowering in Summer	GC	140	
Hemiandra pungens	Snake Bush	Most soils. Mauve flowering in Summer	GC	5L	
Hibbertia racemosa	Coastal Buttercup	Small shrub to 30 cm high and 1 m wide. Grey green leaves and yellow flowers from late winter to spring.	Sm	140	
Hypocalymma angustifolium	White Myrtle	Moist soils. White and pink flowering in winter and spring.	Sm	140	
Hypocalymma robustum	Swan River Myrtle	Erect shrub, 0.4-1m high .Fl.pink/pink red, Jun to Nov. Gravelly lateritic soils, sandy soils.	Sm	140	
Isopogen formosus	Rose Coneflower	Shrub, 0.2-2 m high. Pink-purple/red flowering winter/spring. Most soil types.	Med	5L	
Juncus kraussii	Sea rush	Most soils, swamps and tolerates salt	Grass	140	
Kennedia becxiana	Cape Arid Kennedia	Most soil types. Red flowering spring/summer	Climber	140	
Kennedia becxiana	Cape Arid Kennedia	Most soil types. Red flowering spring/summer	Climber	5L	
Kennedia lateritia	Augusta Kennedia	Coastal conditions. Threatened flora.	Climber	140	
Kennedia lateritia	Augusta Kennedia	Coastal conditions. Threatened flora.	Climber	5L	
Kennedia prostrata	Running Postman	Usually sandy gravelly soils. Red flowering in autumn and spring.	GC	140	
Kunzea baxteri		Most soils. Red flowering Autumn/Spring.	Med	140	
Kunzea baxteri		Most soils. Red flowering Autumn/Spring.	Med	5L	

<b>Botanical Name</b>	<b>Common Name</b>	<b>Description</b>	<b>Plant Type</b>	<b>Pot size mm</b>	<b>Orders</b>
Kunzea 'Eye Screen'		Fast growing, great hedge or screening plant. Native to WA. Full sun/part shade. Low water requirements.	Lg	5L	
Leschenaultia biloba	Blue Leschenaultia	Sand, Lateritic or Granitic and dry conditions. Blue flowering winter, spring.	Sm	140	
Leschenaultia biloba	Blue Leschenaultia	Sand, Lateritic or Granite and dry conditions. Blue flowering winter, spring.	Sm	5L	
Macrozamia riedlei	Zamia Palm or Cycad	Tree or (cycad), 0.5-3 m high, small, usually trunkless; leaves few, glossy, flat or openly keeled, narrow leaflets; short cones. Fl. Sep to Oct. Lateritic soils. Jarrah forests.	Sm	5L	
Maireana oppositifolia	Heathy Bluebush	Most soils. Saline flats and salt lakes	Sm	140	
Melaleuca huegelii	Chenille Honey Myrtle	Well drained soils and coastal conditions. Pink/white flowering spring/summer	Lg	5L	
Melaleuca incana 'Nana'	Grey Honey Myrtle	Most soils. Tinted blue-green or grey foliage. Cream flowers in spring.	Sm	140	
Melaleuca lanceolata	Rottnest Teatree	Most soil types. Suit coastal conditions and tolerates limestone and salt.	Sm tree	140	
Melaleuca 'Little Nussy'		Seaside gardens and a hedge. Full sun to part shade. Grows well in many soils, clay, and sand and tolerates limestone.	Med	5L	
Myoporum 'Fine Leaf'	Creeping Boobialla	Tolerates a wide range of soils. A great bank stabiliser and lawn substitute.	GC	140	
Myoporum 'Fine Leaf'	Creeping Boobialla	Tolerates a wide range of soils. A great bank stabiliser and lawn substitute.	GC	5L	
Myoporum oppositifolium	Twin-Leaf Myoporum	Twin-leaf Myoporum Sandy loam, coastal and river banks White flowering in Summer	Med	140	
Myoporum purpurea	Creeping Boobialla	Tolerates a wide range of soils. A great bank stabiliser and lawn substitute.	GC	140	
Orthrosanthos laxus	Morning iris	Well drained soils. Blue flowering in spring	Grass	140	
Orthrosanthus multiflorus	Morning Iris	Well drained soils. Multi blue flowering in spring	Grass	140	
Paraserianthes lophantha	Albizia	Well drained soils and swamps. Yellow/green-yellow flowering winter/spring.	Sm tree	140	
Pattersonia occidentalis	Purple Flag/Herb	Most soil conditions, coastal, winter-wet depressions. Purple flowering Winter/Summer.	Sm	140	
Pattersonia occidentalis	Purple Flag/Herb	Most soil conditions, coastal, winter-wet depressions. Purple flowering Winter/Summer.	Sm	5L	
Pimelea 'Bonne Petite'	Rice Flower	Well drained soils, coastal conditions. Pale pink flowering winter to spring.	Sm	5L	
Pimelea 'Magenta Mist'	Rice Flower	Well drained soils, coastal conditions. Pink/purple flowering winter to spring.	Sm	140	

Botanical Name	Common Name	Description	Plant Type	Pot size mm	Orders
Pimelea 'White Solitaire'	Rice Flower	Well drained soils, coastal conditions. White flowering winter to spring.	Sm	140	
<u>Podocarpus drouynianus</u>	Wild Plum	Bush Tucker. Large shrub or (conifer), male and female plants. Aug to Dec or Jan to Apr flowering. Edible purple, plum like fruit. Most soil types.	Lg	140	
Pultenaea skinneri	Skinner's Pea	Slender shrub, 1-2 m high. Flowering yellow/orange & red winter/spring. Sandy or clayey soils. Winter-wet depressions.	Sm	5L	
Regelia inops		Pink-purple-blue flowering summer/winter. Sandy soils. Winter-wet depressions, sandplains.	Med	140	
Regelia velutina	Barrens Regelia	Medium shrub. Red flowering, Sep to Nov or Feb. Skeletal sandy soils. Well drained	Med	140	
Rhagodia spinescens	Spiny Saltbush	Divaricately branched, often spinescent shrub, 0.3-1.5(-2.5) m high. Sandy clay, clay. Dried river beds.	GC	140	
Ricinocarpus tuberculatus	Wedding Bush	Well drained soils. Frost tolerant. White flowering spring summer.	Lg	140	
Ricinocarpus tuberculatus	Wedding Bush	Well drained soils. Frost tolerant. White flowering spring summer.	Lg	5L	
Santalum spicatum	Sandlewood	Hemiparasitic on roots. Green/red, flowering Autumn/Winter. Well-drained soil.	Lg	5L	
Scaevola 'Mauve Mist'	Fan Flower	Prefers a moist, well-drained soil. Blue-purple fan flowers in spring- autumn.	GC	140	
Templetonia retusa	Cockies Tongue	Well drained soils, coastal conditions. Red pea shaped flower in winter and spring.	Med	140	
Templetonia retusa	Cockies Tongue	Well drained soils, coastal conditions. Red pea shaped flower in winter and spring.	Med	5L	
Thryptomene Saxicola	Rock Thryptomene	Well drained soils, drought tolerant. Mass of small pink flowers in Autumn and Spring.	Sm	140	
Thryptomene Saxicola	Rock Thryptomene	Well drained soils, drought tolerant. Mass of small pink flowers in Autumn and Spring.	Sm	5L	
Verticordia plumose	Plumed Featherflower	Most soil types, seasonally wet situations and road verges. Pink flowering in Spring summer.	Sm	140	
Verticordia plumose	Plumed Featherflower	Most soil types, seasonally wet situations and road verges. Pink flowering in Spring summer.	Sm	5L	
Viola hederacea	Native Violet	Moist well drained soils. Semi-shade areas. Cream/purple/white flowering most of the year.	GC	140	

Botanical Name	Common Name	Description	Plant Type	Pot size mm	Orders
Westringia dampieri	Shore Westringia	Sandy coastal conditions. White flowering most of the year.	Med	140	
Westringia dampieri	Shore Westringia	Sandy coastal conditions. White flowering most of the year.	Med	5L	
Xanthorrhoea preissii	Grass trees	Perennial tree-like monocot, to 5 m high, trunk to over 3 m. Most soil types.		Various sizes	<b>Enquire within</b>
